

AACE RMS will be hosting a two-day PSP Review course on June 12 and June 19 at the Embassy Suites Hotel DTC. This review course will start at 8 am and end around 1 pm each of the two Saturdays. Cost will be \$75 for both Saturdays. You will need to bring your PSP Certification Study guide along with any other study materials you might have for class discussions.

Our instructor, Dan Coopriider, recently took and passed the PSP exam and is going to help prepare course attendees for studying to pass the AACEI PSP. Although Dan will not be able to actually teach the exam, the first class day (June 12) is expected to start with an overview of PSP ideas and concepts which might be found on the exam. Dan will review Process Models as well as discuss methods for understanding and analyzing schedules. These are key points to understand when taking the PSP exam.

The second Saturday (June 19) will be a day of questions and answering after a week of self-reviewing the previous Saturday's information and various study guide materials. It is recommended that attendance to both Saturdays will assist in preparing a PSP applicant for taking the exam on July 10. It is important to have already spent time reviewing your PSP Study Guide as this will be the basis of the review course.

Please contact Carole Venters ([carole.venters@jacobs.com](mailto:carole.venters@jacobs.com) or 303-462-7195) if you are interested in attending this two day PSP review course.
